

Sanjeevani

Surgical & General Hospital

Multi Speciality Hospital

Care beyond cure

Established in 1999 with the sole aim of providing excellent medical treatment at affordable price Sanjeevani surgical and General Hospital is the brain child of its Founder and Medical Director Dr. Sunil Agrawal. The name Sanjeevani inspired from name of Dr. Sunil Agrawal's mother name & also the life saving herb in Ayurved.

Sanjeevani began its journey in 1999 with 9 bed hospital in Malad (E), western suburb of Mumbai. Over the years hospital has acquired top of the line equipments and services of best of the brains in health care.

Now Sanjeevani is poised for big growth both quantitatively as well as qualitatively. Now Sanjeevani is a 100 bed hospital. In this venture Dr. Sunil Agrawal is supported by Dr. Shyam Agrawal (Leading Ophthalmologist, He excels in cataract

Dr. Shyam Agrawal

surgery by phaco emulsification's technique & correction of reflective errors - LASIK SURGERY), Dr. Shyam Agrawal is mentor and guide of Dr. Sunil Agrawal. Dr.

Rajesh Binyala (Physician, Cardiologist), Mr. Dhawal Agrawal (microbiologist) who are his partners in this venture.

Dr. Sunil Agrawal

Dr. Rajesh Binyala

The center is open 24 x 7 x 365 days. Every incoming patient becomes the member of Sanjeevani family and is treated with best medical facilities under supervision of top class professional in their respective field. The Centre has a strong team of more than 50 specialized and super specialized consultants with the support of more than 200 charged up para medical support staff.

At Sanjeevani more emphasis is given on Patient - Doctor relationship & one to one interaction as a result every incoming patient receives treatment in a healthy & moral boosting atmosphere which result in speedy recovery of the patient.

Sanjeevani is committed to maintain transparency of Charges. Doctors, Support staff of Sanjeevani aim at making Sanjeevani a multi facility hospital which would be one of its kind in Mumbai in coming days. Our motto is...

- ◆ Centralized O2 / Suction
- ◆ Constant Supervision by well trained Dialysis technicians & Doctors

Pathology

The Pathology Laboratory is an important component of any health care center. We all know today investigations play a vital role in the management of any illness. They provide us with clues that help decide on the treatment modality.

Accuracy, precision and timeliness are vital characteristics of any good and progressive laboratory. The Laboratory at Sanjeevani is fully automated and has state-of-the-art equipment that analyses all blood and body fluid parameters. The department of Laboratory Medicine is among few others in the country to offer reliable and reproducible quality results.

The department boasts of its quality through the numerous quality control programs (internal & external) that it carries out. The department functions "round-the-clock"

throughout the year offering Inpatient and Outpatient testing capabilities with an extremely comprehensive menu of investigations to choose from which includes routine and specialised investigations.

Faxing facilities are also extended to all patients within Mumbai. Reports are also couriered if requested.

Home Collection facility is also available at reasonable charges.
